THINGS TO PLANT IN JULY AND AUGUST

Annuals for July include Celosia, coleus, crossandra, exacum, impatiens, kalanchoe, nicotiana, ornamental pepper, portulaca, salvia, and vinca (periwinkle).

Annuals for August include July's annuals plus salvia or garden mums.

Bulbs for July include Aztec lily, butterfly lily, gladiolus, gloriosa lily, kaffir lily, moraea (African lily), Scarborough lily, sternbergia, spider lily and walking iris.

Bulbs for August include July's bulbs plus grape hyacinth, iris and leopard lily. Also, it is a good time to divide and transplant spring flower bulbs.

Perennials are plentiful in the summer. Plant Ranch has a great selection.

Vegetables to plant in July include beans (snap, pole and lima), corn, cucumbers, peas, pumpkin, eggplant, okra, peppers, and watermelons. Cool season crops include broccoli, cauliflower, collards, tomatoes, bunch and multiplier onions and turnips.

Vegetables to plant in August (end of the month) are some cool crops such as broccoli, cauliflower, collards, onions and turnips.
